Summary

Entry-level Full Stack Developer with hands-on experience in Django, React.js, Next.js, REST APIs, and database-driven applications. Skilled in building scalable web applications with JWT authentication, API integrations, PostgreSQL, Celery task automation, and cloud-based workflows. Strong foundation in backend development, modern web technologies, and full-stack application development.

Education

AKG Engineering College, Ghaziabad

2024 – 2028

B.Tech in Computer Science

CGPA: 8.3

Sainik Institute Inter College, Bahraich

2022 – 2024

UP Board — Science Stream

85%

Technical Skills

- **Languages:** Python, JavaScript
- **Backend:** Django, Django REST Framework, REST APIs, JWT Authentication , Payment Integration (RazorPay)
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Frontend:** HTML, CSS, Vanila.js, React.js, Next.js, Tailwind CSS
- **Native App:** React Native Expo
- **Tools:** Git, Docker, Postman, VS Code
- **Cloud Exposure:** Azure AI services, cloud-based workflows

Experience

Azure Ai with python Intern (Certificate)

Pynelabs

- Worked with Azure-based cloud workflows and Python integrations.
- Gained exposure to deployment concepts and backend best practices.

Trainee → Member

Computer Society of India (CSI), AKGEC

- Completed technical training and contributed to CSI events.

Projects

JobSeeker Platform (Backend)

Django, DRF, PostgreSQL

- Developed a job portal backend with JWT auth, recruiter/job-seeker dashboards, real-time chat, and community features.
- GitHub

PitWatch (Backend)

Django, DRF, PostgreSQL

- Built a pothole reporting backend with JWT auth, geospatial APIs, async ML inference using Celery + Redis, and Cloudinary integration.
- GitHub

Sarthi AI (Backend)

Django, Celery, Redis

- Built a healthcare backend with JWT auth, medicine scheduling, Celery-based reminders, and Vapi voice-call automation.
- GitHub

Birthday Wish App

React.js

- Built an interactive birthday celebration web app with greeting sections, memory timeline, and responsive UI components.
- GitHub — Live Demo
